

ABSTRACT OF THE DISCLOSURE

An electronic apparatus to which a plurality of
batteries are detachably mounted, has a removal requirement
5 receipt section for receiving a removal requirement for a
part of the mounted batteries, a processing ability
determination section responsive to the removal requirement
for a battery from said removal requirement receipt section
for determining whether a supplying possible electric power
10 from the remaining batteries is an electric power capable
of maintaining a processing ability or an electric power
which needs to lower the processing ability, and a
processing ability control section for lowering the
processing ability in accordance with a decision from said
15 processing ability determination section that the electric
power needs to lower the processing ability.
